

VISTA[®] Field QC Package— Now Available In a High Performance Mobile Platform

The NextDimension from NextComputing offers enterprise computing in a robust briefcase-style chassis

The VISTA[®] Field QC Package from Gedco is the fastest-selling 2D/3D seismic processing system in the world

Outstanding Performance, Outstanding Value

NEXT COMPUTING

**Powerful. Open Standards.
Modular. Mobile.**

- Process massive amounts of 2D and 3D survey data from a single, portable workstation.
- Field Processing and Full Processing packages offer advanced functionality like pre-stack migrations, depth migration, and time/depth image analysis.
- Swap processor modules to meet the expanding needs of your operation with Dual-Core and Quad-Core processors from AMD™ and Intel®
- Integrated 17" LCD supports resolutions up to 1920x1200
- Optional lightweight external monitors clip on to chassis for easy transportation
- Up to (17) internal hard disk drives to 200GB each
- Multiple PCI-X and PCI Express slots; enhance visualization capabilities and data throughput speed using expansion cards
- 110/220V 50/60Hz switching power supply
- Operating: 5°C–50°C, 41°F–131°F, Relative humidity (5-95%) non-condensing
Non-Operating: -40°C–65°C, -40°F–149°F, Relative humidity (5-95%) non-condensing
- Rugged hard cases available
